

Pollutants Over Time

Air Pollution: What Goes Up Your Nose?

Student Data Page 3C

II. Air Pollution: What Goes Up Your Nose?

Using the background information on air pollution provided on the *Student Information Page*, create a drawing in the spaces below for each major type of air pollution. Your drawing must include the *sources of the pollutant* and the *problems caused by the pollutant*. Write important information about each pollutant on the lines beneath your drawing.

Sources of pollutant

Problems caused by pollutant

VOCs

Sources of pollutant

Problems caused by pollutant

Carbon Monoxide

Sources of pollutant

Problems caused by pollutant

PM-2.5 Particulate Matter

Sources of pollutant

Problems caused by pollutant

PM-10 Particulate Matter

Sources of pollutant

Problems caused by pollutant

Sulfur Dioxide

Sources of pollutant

Problems caused by pollutant

LEAD

Sources of pollutant

Problems caused by pollutant

Nitrogen Dioxide

Sources of pollutant

Problems caused by pollutant
